

LIMITED WARRANTY STATEMENT

PHOTOVOLTAIC MODULE PRODUCTS

Effective July 31st, 2015

Twenty (20) Year Limited Product Warranty

Subject to the exclusions contained below, Honeywell Solar Modules warrant to the original buyer (the “Buyer”) that the modules shall be free from defects in materials and workmanship that have an effect on module functionality under normal application, installation, use and service conditions as specified in our standard product documentation.

We guarantee that the module will maintain the mechanical integrity and stability in accordance with approved operation methods described in our installation instructions; the glass of a module will maintain its integrity provided there are no indications of localized impacts or external forces; and that the cable and connector plug of a module will remain safe and operational provided modules are professionally installed. Any damages caused by abrasion, improper installation or animals are exempt from this warranty.

Claims under the warranty can only be accepted if the Buyer can provide proof that the malfunctioning or non-conformity of a module results exclusively from defects in materials and/or workmanship under normal application, installation, use and service conditions specified in our standard product documentation. Any color change on module or any other changes on module appearance do not represent defects.

Twenty-Five (25) Year Limited Performance Warranty

We guarantee that for a period of twenty-five years the module will maintain a performance as set forth below:

- During the first year, we guarantee the actual power output of the module will be no less than 97.5% of the labeled power output.
- From year 2 to year 24, the actual annual power decline will be no more than 0.7%; by the end of year 25, the actual power output will be no less than 80% of the labeled power output.

The actual power output of the module shall be determined for verification using Standard Testing Conditions only. The actual power output measurement is either carried out by our facility or by a recognized 3rd party testing institute. Testing equipment tolerances will be applied to all actual power output measurements.

In the event it is determined that there is a negative deviation of actual performance from the warranted values then Honeywell Solar, at its option, will compensate for such loss in power by either providing to the Buyer additional modules to make up the total wattage loss,

or by repairing or replacing the modules or providing an appropriate residual market value of the product(s) as compensation.

Warranty Effective Date

The warranty effective date shall be defined as the date of installation or ninety (90) days after the delivery by Honeywell Solar Modules, whichever date is earlier.

Exceptions

The limited warranties set forth herein DO NOT apply to any module which has been subjected to negligence in transportation, handling, storage or use, or has been repaired, or in any way tampered with, or which has been subjected to extraordinary salt or chemical exposure, or which has been subjected to improper installation, application, alteration, unauthorized service, or which has been subjected to power failure surges, flood, fire, direct or indirect lightning strikes, or other acts of nature, or which has been subjected to accidental breakage, vandalism, explosions, acts of war, or other events outside our control. Unless otherwise required by any mandatory applicable law, the limited warranties do not cover any transportation costs for return modules, or for reshipment of any repaired or replaced module, or any other cost associated with installation, removal or reinstallation of modules.

In addition, the limited warranties do not apply to any cosmetic change in appearance stemming from normal wear and tear over time of product materials. Warranty claims will not apply if the product label, type or serial number of the applicable product has been altered, removed or made illegible.

Claim Verification and Remediation Process

If the Buyer believes that it has a justified claim covered by the limited warranties set forth above, then the Buyer shall comply with the following return material authorization (“RMA”) process. The Buyer must submit such claim in writing to Honeywell Solar Modules within the applicable warranty period specified above to the following address, or such future address as we may provide from time to time.

- Honeywell Solar Modules
- Koornbeursweg 67-1, 8442 DJ Heerenveen
- The Netherlands
- Tel +31 85 401 6411
- Email: info@honeywell-solar.com

Such notice should enclose evidence of the date of delivery of the applicable product and the basis for the Buyer’s claim.

Warranty claims may only be made by the original buyer or a person to whom the title to the applicable module(s) has been transferred, provided that the modules remain in their original location and configuration.

Upon receipt of such written claim, we may seek further verification of the Buyer's claim of a breach of one of the foregoing limited warranties. Except as otherwise set forth above, the Buyer will return the allegedly-defective products to us in accordance with written RMA authorization and return packaging and shipping instructions from Honeywell Solar Modules. The return of any product will not be accepted by us unless prior written authorization has been given by us and the Buyer has complied with the packaging and shipping instructions provided by Honeywell Solar Modules.

If we verify in its reasonable judgment that a module does not comply with the limited warranties set forth above, then we, at our option, will either repair the affected module and return it to the Buyer, provide a new or refurbished replacement module shipped to the Buyer at the Buyer's expense, or provide an appropriate residual market value of the reduced performance of product(s) as compensation. Any repair or replacement of an affected module shall not increase the applicable warranty period. We reserve the right to deliver a similar module (of similar size, color, shape, and/or power output) in replacement of the returned module should the production of the returned model be discontinued or otherwise unavailable. Ownership of all modules which have been replaced is passed to Honeywell Solar Modules.

Except as otherwise provided by applicable law, the foregoing remedies state our sole and exclusive obligation and the Buyer's sole and exclusive remedy for a breach of the foregoing limited warranty.

Not Independent Warranties

The Buyer has the right to pursue claims under each of the warranties set forth above; provided that if claims arise under multiple limited warranties from a single incident, then if we remedy such incidents as set forth above, we shall be deemed to have resolved all applicable warranty claims arising from such an incident.
